Play values

Combination equipment, Sliding, Climbing

Material

Posts made of powdercoated aluminium. The top is covered with a pole cap. Floors are entirely made of recyclable plastic and have an anti-slip profile. Plate material is made of coloured 19mm thick HMPE of a quality for outside use. Slides are made of coloured fiberglass-reinforced polyester. All metal parts are powder-coated aluminium or stainless steel. Connections are, where necessary, covered with a plastic cap.

Anchoring

Posts are placed in the ground with a galvanised steel base plate.

Remarks

If the soil condition does not contribute to stability, it may be necessary to add concrete.
